Aug 2022 - Oct 2022

Certificate

PROJECTS

Rick&Morty
May 2023 - May 2023
https://shivampatel-rickandmorty.netlify.app/
This project hosts a web application inspired by the beloved animated TV series "Rick and Morty." The application offers users an immersive experience to delve into the rich universe of characters and episodes from the show. Crafted with React.js and Bootstrap, the web app boasts a dynamic and adaptable user interface that seamlessly adapts to different screen sizes and devices. Users can effortlessly navigate through a treasure trove of information, discovering intricate details about their favorite characters and captivating episodes.

Netflix 2.0
Dec 2022 - Dec 2022
https://shivam-netflixclone.netlify.app/
This project encompasses the necessary code for developing a replica of the widely acclaimed streaming platform, Netflix. The primary objective of this clone is to faithfully recreate key functionalities and the user interface that defines the Netflix experience. By studying and emulating the core features of Netflix, this project strives to deliver a similar user interface, allowing users to navigate, search, and access a vast collection of content.

NEWS App

Jan 2022 - Jan 2022

https://github.com/Shivam1272/Flutter_News

This Flutter mobile application is designed to retrieve and showcase news articles from various sources. It utilizes the power of the News API to fetch the most up-to-date news articles and offers users the ability to browse articles based on their preferred categories. With a sleek and intuitive user interface, users can easily navigate through the app, discovering news articles from diverse sources and staying informed about the latest developments across different topics. The application seamlessly integrates with the News API, ensuring that users have access to a wide range of reliable and relevant news articles at their fingertips. Whether seeking updates on global affairs, sports, technology, or entertainment, this mobile app provides a convenient and personalized news browsing experience.

TRAININGS & CERTIFICATE

MERN Stack

Mindluster, Online Apr 2023

Certificate

POSITIONS OF RESPONSIBILITY

I volunteered at the GDSE Event hosted in a college and actively contributed to the development of an app for the GDSE Team. In collaboration with the Lead, I assisted in building the app, which was designed to showcase detailed information about the GDSE Team member.

ADDITIONAL DETAILS

Achieved 3rd place in the final exams at my school.
Actively participated in a 48-hour-long National level hackathon.

Area Of Interest

WEB Development (MERN STACK)
App Development (FLUTTER)
